

## List of Pre-communist Chinese Newspaper and Periodical Indexes in the Yale Library

Draft, created April 11, 2005

Compiler's note: By aggregating various indexes together, this list aims at facilitating the access to and use of Chinese newspapers and periodicals published in the late Qing and the Republican era. This list comprises over 40 titles that are devoted to indexing articles published in these newspapers and periodicals as well as the cumulative tables of contents. Catalogs of newspapers or periodicals and subject bibliographies (usually containing citations to articles) are not included. Among the titles on this list, the most important periodical indexes are 中国近代期刊篇目彙錄, covering the period from the late Qing to 1918, and 中国现代文学期刊目录汇编, covering the period from 1919 to 1949. 申报索引 is undoubtedly the most important newspaper index, even though it does not cover the whole lifespan of 申报. Understandably the list is far from complete, even for titles available in the Yale Library. If you see any other index not on this list, please do let me know. The list is now arranged in the alphabetical order of the title, but I welcome your suggestions on how to organize this list better. I intend to add annotations and location information in the future, if time allows. Please send comments to: Tao Yang (tao.yang@yale.edu). Thanks!
